NO CONFIDENCE GAME!

We don't practise the time-worn trick of offering a few things dirt-cheap and making
it up on the rest. All our goods—comprising everything in the line of Housefurnishings,
Furniture, Carpets, etc., in every grade and style—are on one uniform level of money
worthiness. No matter what you pick out, you'll find it the biggest value for the money
every time, and we'd like to see anybody undersell us.

THE BIG STORE.

One Side of the Money Question

Upon Which All New York Has Agreed.

It is the money-saving side that has been inaugurated by "The Big Store." No matter what may be the belief of the Gold Bug or Silver Bug in regard to the correct financial policy of the Government, they both prove that they are unanimous on the subject of their own financial policy by the patronage which they are giving "The Big Store." One of the straws that shows which way the wind blows is the remarkable increase in the number of people on Sixth avenue since "The Big Store" opened. We have been told that the receipts at the Eighteenth street station of the Sixth avenue elevated road have made an average increase of nearly \$100 per day since Siegel-Cooper Co. began business.
